2. Brief History (as per inquest papers)

The deceased was reportedly found lying unconscious at his residence on 07-09-2025 at about 9:45 PM.

He was declared dead at the spot by the attending physician. No signs of forced entry or struggle were reported.

3. External Examination

- General built: Medium, well-nourished
- Length: 170 cm
- Weight: 68 kg
- Clothes: White shirt, black trousers (blood-stained)
- Postmortem changes: Rigor mortis present all over the body. Postmortem lividity present over the back and dependent parts, fixed.
- Injuries:
 - * One stab wound over the left side of chest, 2.5 cm x 1 cm x cavity deep, margins clean cut, direction inward and slightly downward.
 - * No other external injuries noted.

4. Internal Examination

- Thorax: Left pleural cavity contained about 1.5 litres of clotted and fluid blood.
- Heart: Left ventricle punctured by stab wound, 2 cm in length. Chambers empty.
- Lungs: Collapsed due to injury, pale.
- Abdomen: Organs congested.
- Stomach: Contained 150 ml of semi-digested food, no unusual smell.
- Brain & Skull: No abnormality detected.

5. Opinion (Cause of Death)

In my opinion, the cause of death in this case is haemorrhagic shock due to stab injury to the heart, which is sufficient in the ordinary course of nature to cause death.

Time since death: Approximately 10–12 hours prior to postmortem examination.
