

Post-Mortem Examination Report (Sample)

Case No.	123/2025
Date of Examination	01-09-2025
Name of Deceased	John Doe
Age	35 years
Sex	Male
Address	Sample Street, Sample City
Date & Time of Death (Approx.)	31-08-2025, 10:30 PM

External Examination:

The body is of a well-built adult male, 172 cm in height. Rigor mortis is present. Postmortem staining is present over the back. No external injuries noted except a contusion (3x2 cm) over the left forearm.

Internal Examination:

Cranial cavity: Intact. Brain congested. Thoracic cavity: Ribs and sternum intact. Lungs congested. Heart weighs 320 g, chambers contain dark fluid blood. Abdominal cavity: Stomach contains 200 ml of partially digested food. Liver congested, spleen enlarged. Kidneys congested.

Opinion as to Cause of Death:

The cause of death, in my opinion, is due to **cardiac arrest due to myocardial infarction**. No evidence of foul play detected.
